SiriusWeb

The smartest solution for temperature monitoring of your thermo-controlled chambers

Access all temperature data from your smartphone, tablet or computer through a secured login access

Alarm notification by SMS, email or phone call in case of temperature excursions

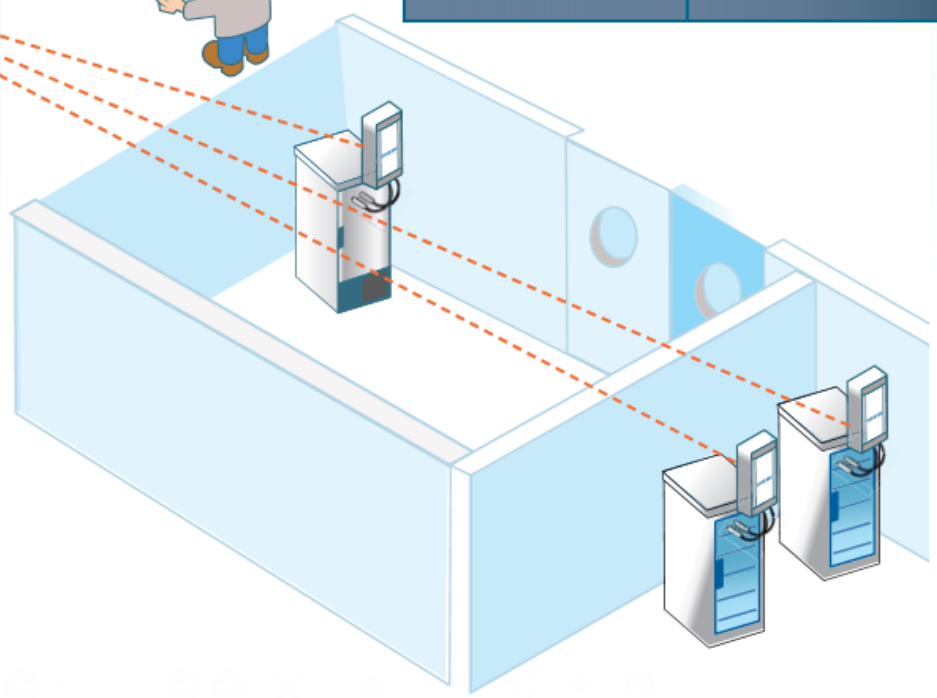

SiriusWeb allows to monitor many types of laboratory equipments: refrigerators, freezers, cold rooms, incubators..., **and ambient conditions in production or storage areas.**

Different types of alarm notification according to the SiriusWeb service package subscribed

Lite	Gold
	
Measurements and history available over a rolling 30-day period	Measurements and history available over a rolling 12-month period

OPERATION

The **SiriusBox measures and records temperature, hygrometry or door openings.**

Measurements data are fowarded to the SiriusWeb cloud through your web connection.

In case of thresholds excursion, **SiriusWeb sends alarm alerts** by e-mail, SMS text message and phone call (according to the level of service you have subscribed).

The SiriusBox integrates an internal buzzer for a local alert (GOLD level service only).

FEATURES

A comprehensive and automated solution from measuring to alert notification.

Easy to implement and use

Easier metrology services
ISO17025 calibration can be performed by simple probe exchange. Your metrological documents can be stored on your SiriusWeb space.

4TH GENERATION DIGITAL PROBES	
Temperature	from -55°C to +80°C
Low Temperature	from -200°C to 0°C
Temperature/ Hygrometry	from -45°C to +85°C/ from 0 to 100%RH
